

## Awareness Campaign against Cybercrime and Online Child Exploitation

A Sub-Committee on Cybercrime under the National Law Enforcement Coordinating Council (NALECC), which CFO is one of the members, was created to cover exploitation done online that can be related to trafficking.

In December 2015, a Round Table Discussion together with the government, non-government organizations, and academe were conducted in Cebu City to discuss about cyberpornography and online child exploitation in relation to human trafficking. A symposium was also conducted in one of the schools as well as posting of IEC materials covering 14 barangays in the identified hotspots for these crimes in the province of Cebu.

The RTD and symposium had an estimated number of 60 participants while the posting of IEC materials in some of the barangays covered an estimated number of 60,000 residents. With these activities, the participants and residents where cybercrime and online child exploitation is rampant, are anticipated to be informed of this crime as well as become aware that even the national government has been doing efforts to resolve and help its constituents especially its local community.

### Round Table Discussion on **CYBER PORNOGRAPHY** and **Online Child Exploitation**
